

Giving Guidelines

As a self-supporting auxiliary, our profits remain on campus to support programs, scholarships and facilities that benefit University of Missouri students. In addition to redirecting our profits to the University, we occasionally provide donations to programs that are in line with our mission to support the University community. Because we receive an overwhelming number of donation requests, our giving is very focused.

The parameters below will help determine if your organization matches our giving guidelines. Please understand that although your organization may fit one or more of the guidelines below, it is not a guarantee that your request will be honored. While we wish we could support all worthy organizations, we simply cannot.

The Mizzou Store will consider requests from the following:

1. University-affiliated organizations;
2. Events conducted by University-recognized student organizations, University departments or alumni chapters. *Note: Priority is given to events that raise scholarship funds for students of the University of Missouri.*
3. Community programs sponsored by the University of Missouri.

Regrettably, the Mizzou Store cannot support:

1. Requests from individuals
2. Silent auctions, event sponsorships or other fundraisers for non-University events
3. Non-university programs: sports, troops, camps, carnivals, class parties, etc.
4. Religious and political groups/campaigns
5. Items distributed or sold on University property that compete with the operations of The Mizzou Store and The Mizzou Store – Tiger Tech.

The majority of donations are in the form of merchandise or gift cards. All requests must be submitted on the “Donation Request Form.” The donation request form must include contact details, scope of the organization applying and details about your initiative. Please allow 7 business days for a response. Forms can be mailed, dropped off, emailed or faxed to:

Drop-off or mail: Donation Requests
